Global Map of Norms regarding Conscientious

This interactive map provides a systematization of the current regulations of 180 countries. It is the first initiative on this scale and with this accuracy in the analysis and categorization of information.

[Visit Global Map of OC](#)

The Map houses, describes, and analyzes constitutional, legal, and regulatory standards regarding CO of 180 of the world's countries, and includes the most relevant caselaw cases in national, regional, and international Human Rights courts. This interactive map is searchable by 4 categories and 11 indicators, as well as by country, which makes it easier to do a comparative study of the regulations and analysis of specific regulatory aspects.

The Map was created by CEDES and REDAAS, with Ipas's support. Project research and implementation were carried out by Agustina Ramón Michel (coordinator), Dana Repka, and Sonia Ariza.
